Titan's War starts on Qeep

Social discovery platform Qeep adds MMORPG to gaming portfolio

Cologne, March 17, 2015 – Blue Lion mobile has combined forces with mobile game specialist Overmobile to bring the MMORPG "Titan's War" into its Qeep mobile community app. This collaboration not only expands Blue Lion mobile's gaming portfolio, but also combines two great success stories – Qeep and Titan's War.

Since 2006 Qeep has amassed almost 35 million users and it continues to grow, attracting new users from around the world to flirt, chat, share photos and play games with one another. Titan's War is a leading title in the Massive Multiplayer Online Role Playing Game (MMORPG) genre.

With great looks, varied game play and superior attention to detail, Titan's War has everything that makes the genre so popular – character development and personalisation, interaction with other players, clan development, and a great backstory.

By connecting Qeep and Titan's War together, players can now directly invite their Qeep friends into a game.

"Right from the beginning, Qeep relied on free-to-play games," explains Cornelius Rost, co-founder of Blue Lion mobile GmbH, "Titan's War continues this tradition – it's a real highlight for us." Dmitry Komleff, CEO of Overmobile is similarly enthusiastic about the joint project: "Our collaboration with Qeep extends the reach of Titan's War to millions of players. The gamers among the Qeep users won't let anything stop them from testing the game, and I know they will love it." Both companies plan to integrate more games into Qeep in the future.

###

About Qeep

Qeep is one of the world's largest mobile social discovery platforms. Members of the community can meet new friends around the globe, chat, flirt, blog photos, and play live multiplayer games. Qeep can be downloaded for free at qeep.mobi or via the Google Play Store. Founded by Blue Lion mobile GmbH in late 2006, Qeep connects 35 million users in over 200 countries. The headquarters is located in Cologne, Germany.
